

MUGGINS MATH SCHOOL PACKAGE PLAN

The research studies included within the staff development portfolio have shown that the key factors to the successful implementation of Muggins Math games and manipulatives are: (1) hands-on training by the teachers in the use of the materials, (2) having an adequate quantity of materials for all the students to be actively engaged in the activities, and (3) regular use of the materials in the classroom instruction time as well as during the students' "free time". We have designed the following packages with these goals in mind.

The maximum class sizes for the various Grade Package Sets are as follows: Pre-K - 2nd (20), 3rd - 5th (25), 6th - 8th and 9th - 12th (32); Special Education Package Sets K - 2nd, 3rd- 5th (12) and 6th - 8th, 9th - 12th (15); Gifted/Talented Package Sets K - 5th, 6th - 12th (15). We recommend purchasing one Grade Package Set for every two teachers of regular classes within a grade level and for every one teacher of special education or gifted/talented to assure that the materials are used most effectively with the students. Use the Order Form on the last page to calculate the Base Price for Materials for the Contract. Include a copy of this Order Form with Contract.

SPECIAL DISCOUNT PRICING: Purchase any grade level package of at least \$1,000.00 and receive a 5% discount. Purchase two grade level packages and receive a 10% discount. Purchase three or more grade level packages and receive a 15% discount.

PRE-K GRADE SCHOOL PACKAGE SET			
<u>QTY.</u>	<u>DESCRIPTION</u>	<u>UNIT PRICE</u>	<u>TOTAL</u>
2	Complete Number Neighbors Kit w/Study Guide in CD format	\$79.95	\$159.90

MATERIALS BASE PRICE TOTAL			
MATERIALS SHIPPING COST @ 9%			
CONSULTANT FEE _____ DAYS X \$1,500.00/DAY (3 - 8 HRS.)			
*TRAVEL EXPENSES - 1 DAY WORKSHOP @ \$1200.00/DAY			
TRAVEL EXPENSES - \$300.00 EA. ADD'L DAY X _____ DAYS			
TOTAL COST OF WORKSHOP			

***TRAVEL EXPENSES BLOCK BOOKING RATE:**

Reduce your travel expenses by booking a date within 1 - 2 days of another workshop within a 3 hour commute. The cost is as follows:

<u># of Workshops in # of Days</u>	<u>Cost per School/District</u>
1/5	\$1200.00
2/5	\$1000.00
3/5	\$ 800.00
4/5	\$ 600.00
5/5	\$ 400.00

For example if 3 nearby schools had workshops on Monday, Wednesday, Friday in one week, the travel expense would be \$800.00 per school instead of \$1200.00 each.
