

MUGGINS MATH SAMPLER PACKAGE PLAN

Sampler Package Plans are designed to give a **Sampler** of **grade-appropriate** manipulative kits, activity books, and games in both wooden and wipe-off formats for each teacher. This plan works especially well for **district wide training in specialty areas such as Title I, Special Education, and Gifted programs** to introduce the Muggins Math materials to both the teachers and their students. It may also be used as a guide in selecting which games and manipulatives are most appropriate for particular grades or special areas of teaching.
